Rationalist Spirituality

Bernardo Kastrup

A book where all aspects of existence find a logical reason, leading to insightful guidelines for living a purposeful life.

"For those of us who have been dealing with philosophy, religion, metaphysics, ... this book comes as a refreshing and valuable asset in trying to help us explain our concerns and our interests to others who are more scientific and logically minded. Bernardo Kastrup has done us all an important favor in approaching these issues from a strictly rational standpoint. In a brilliant leap of courage and clarity, he takes us, step-by-step, through his logic." Alan Glassman, New Dawn Magazine

Iff Books; 2011-01-28; Spirituality/Mind & Body/Metaphysics; Pb-9781846944079, \$14.95/£9.99, 120pp, 5.5x8.5inches / 216x140mm, Ebk-9781846947353, \$11.99/£7.99.

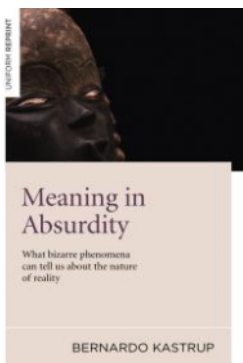

Dreamed up Reality

Bernardo Kastrup

A strong and growing intuition in society today is the idea that our thoughts create our own reality. Yet it seems obvious that, try as we might, our lives are not quite what we fantasize. Is the intuition thus wrong? Through a rational, methodic interpretation of meditative insights, the validity of which is substantiated with a compelling scientific literature review, the author constructs hypotheses that reconcile facts with intuition.

Iff Books; 2011-06-24; Parapsychology (General)/Metaphysics/Creative Ability; Pb-9781846945250, \$19.95/£11.99, 208pp, 5.5x8.5inches / 216x140mm, Ebk-9781846949333, \$14.99/£8.99.

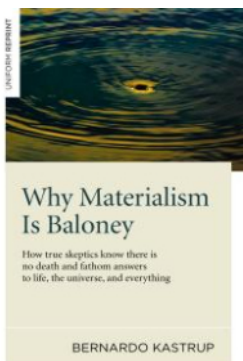

Meaning in Absurdity

Bernardo Kastrup

A compelling and eloquent articulation of a future when humanity will transcend logic and find profound meaning in the absurd.

"Meaning in Absurdity *leaves us with a world-view where logic is itself a construction of the mind, and rationality a veneer over an 'unfathomable core of the unformed', the meaningful non-rational, the domain of the imagination. Coming to terms with this might be the greatest existential challenge the human race has ever faced, but one that Kastrup believes could represent the greatest opportunity ever to shape our own existence...*" Geoff Ward

Iff Books; 2012-01-27; Parapsychology (General)/Metaphysics/UFOs & Extraterrestrials; Pb-9781846948596, \$16.95/£9.99, 136pp, 5.5x8.5inches / 216x140mm, Ebk-9781846948602, \$12.99/£7.99.

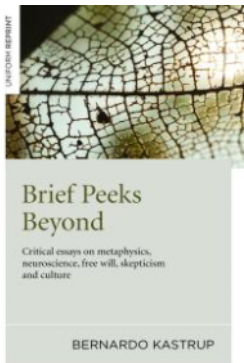

Why Materialism Is Baloney

Bernardo Kastrup

A hard-nosed, coherent and empirically plausible non-materialist metaphysics according to which the body is in mind, not mind in the body.

"Bernardo Kastrup's book is another nail in the coffin of the superstition of materialism. With elegant clarity, he explains that mind, brain & cosmos are what consciousness does." **Deepak Chopra, M.D., bestselling author**

Iff Books; 2014-04-25; Metaphysics/Mind & Body; Ebk-9781782793618, \$16.99/£9.99, Pb-9781782793625, \$22.95/£12.99, 256pp, 8.5x5.5inches / 216x140mm.

Brief Peeks Beyond

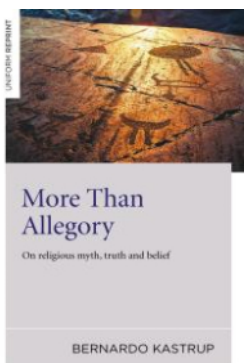

Bernardo Kastrup

This book is a multi-faceted exploration and critique of the human condition as it is presently manifested.

"Better than any book I've come across, Bernardo Kastrup's collection of essays confronts two mysteries that must be urgently solved. The first is the mystery of reality. The second is the mystery of knowledge. To confront both mysteries at once requires courage, tenacity, a willingness to swim upstream, and thick skin. But if you have a persistent, acute mind like Bernardo's, an exciting journey opens up." **Deepak Chopra, M.D., best-selling author**

More Than Allegory

Bernardo Kastrup

A plausible, living validation of religion that doesn't contradict reason. This book is a three-part journey into the rabbit hole we call the nature of reality. Its ultimate destination is a plausible, living validation of transcendence.

"Do not kid yourself. This is no ordinary book. It is a tangle or reflexive loop in the brain of God. ... It is certainly not a book to provide your already overloaded life with yet more information or mere data. It is not about information at all. It is about the knower of any and all information. Read on, then, inside God's brain, but be careful. You just might wake up God." **Jeffrey J. Kripal**

Iff Books; 2016-04-29; Comparative Religion/Metaphysics; Pb-9781785352874, \$21.95/£12.99, 264pp, 8.5x5.5inches / 216x140mm, Ebk-9781785352881, \$9.99/£6.99.

Idea of the World, The

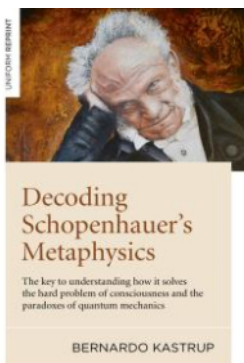

Bernardo Kastrup

A rigorous case for the primacy of mind in nature, from philosophy to neuroscience, psychology and physics.

"Bernardo Kastrup is one of the leading thinkers today about the nature of consciousness. In his latest book The Idea of the World, he presents a compelling argument that consciousness is fundamental and causal, that reality arises from consciousness, not consciousness from spacetime. He writes well, and his arguments are well-grounded. This book is worthy of your attention." **Stephan A. Schwartz, scientist, futurist, historian, and writer**

Decoding Schopenhauer's Metaphysics

Bernardo Kastrup

First proposed more than 200 years ago, Schopenhauer's extraordinarily prescient metaphysics offers powerful answers not only to the paradoxes of quantum mechanics, but also to modern philosophical dilemmas such as the hard problem of consciousness. But, Schopenhauer's argument has been consistently misunderstood and misrepresented, even at the hands of presumed experts.

Decoding Schopenhauer's Metaphysics offers a conceptual framework for unlocking the sense of Schopenhauer's metaphysical contentions in a way that renders them mutually consistent.

Iff Books; 2020-07-31; Metaphysics/Quantum Theory/Individual Philosophers; Pb-9781789044263, \$14.95/£9.99, 144pp, 8.5x5.5inches / 216x140mm, Ebk-9781789044270, \$11.99/£7.99.

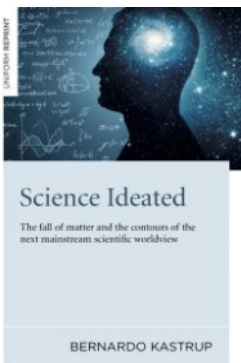

Decoding Jung's Metaphysics

Bernardo Kastrup

"Bernardo Kastrup's rigorous analysis and penetrating insights are paving the way for an important, and truly massive, shift in our understanding of the relationship between consciousness and what we think of as the physical world. His approach is both subtle and wise. His persistent scholarship in this area makes evident points of metaphysical clarification that even Jung, himself, was hesitant to explicate." **Jeffrey Mishlove, Ph.D., psychologist and host of 'Thinking Allowed'**

Iff Books; 2021-02-26; Metaphysics/Analytic/Jungian; Pb-9781789045659, \$19.95/£12.99, 160pp, 8.5x5.5inches / 216x140mm, Ebk-9781789045666, \$15.99/£10.99.

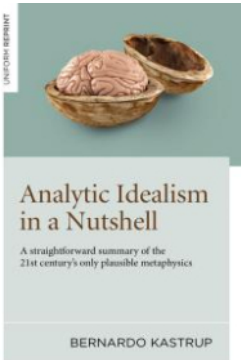

Science Ideated

Bernardo Kastrup

Why it is increasingly evident that ideas, not matter, are the sole object of all sciences. *Science Ideated* is the first concrete, persuasive intimation—and description—of an imminent historical shift in our worldview, from 'scientific' materialism to analytic idealism.

The book brings together a number of highly influential essays previously published by major media outlets such as Scientific American and the Institute of Art and Ideas.

Iff Books; 2021-08-27; Philosophy & Social Aspects/SCIENCE (General)/Metaphysics; Pb-9781789046687, \$25.95/£16.99, 272pp, 8.5x5.5inches / 216x140mm, Ebk-9781789046694, \$20.99/£13.99.

Analytic Idealism in a Nutshell

Bernardo Kastrup

This book embodies its author's yearslong experience of how best to explain Analytic Idealism to someone who has never studied it before and who has no background in the technical fields involved. It meets the readers where they are, holding their hands as they are shown—through a series of evocative metaphors—how to see through their own unexamined assumptions. The conclusions have tremendous implications for our values and ways of life, as well as our understanding of purpose, self, identity, and death.
