## Resetting Our Future: A Chicken Can't Lay a Duck Egg

Graeme Maxton & Bernice Maxton-Lee

Vast swathes of the current economic system have to be dismantled to secure humanity's future. Until recently that was thought impossible. Covid-19 proves this wrong. It is possible to shut polluting businesses overnight and pay people during a transition. Because Covid-19 has done half the job for us, a sustainable future is finally within our grasp. This book explains how societies can embrace this unique chance to build a future where people live with decency, and in balance with nature.

**Changemakers Books;** 2020-10-15; Global Warming & Climate Change/Environmental Economics/Political Economy; Pb-9781789047615, \$10.95/£7.99, 136pp, 8.5x5.5inches / 216x140mm, Ebk-9781789047622, \$5.99/£4.99.

## Resetting Our Future: A Global Playbook for the Next Pandemic

Anne Kabagambe

The health and economic devastation caused by COVID-19 has revealed that most countries' national health systems are inadequate to cope with pandemics. At the heart of this book is a bold new proposal to create a global pandemic playbook that can be quickly deployed when the next pandemic strikes.

Anne Kabagambe, a former Executive Board director for the World Bank Group, explores the options, and argues that countries and their experts must collaborate to create early warning systems, preparedness, prevention, responses and containment.

**Changemakers Books;** 2020-10-15; Strategic Planning/Structural Adjustment/Decision-Making & Problem Solving; Pb-9781789047592, \$10.95/£7.99, 96pp, 8.5x5.5inches / 216x140mm, Ebk-9781789047608, \$5.99/£4.99.

## Resetting Our Future: Power Switch

Paul O'Brien

Is it actually possible? ...that we might emerge from this pandemic with a peaceful global power switch from those who have too much to those who don't have enough? Not to restore the pre-crisis order, but to transform it. Paul O'Brien argues that we may never have a better opportunity...

'The bad news is that the world is in crisis; the good news is that transformative activism can overcome it. Will the more formal progressive institutions have the courage to go all in with that activism?' **Ben Phillips, author of How to Fight Inequality**

**Changemakers Books;** 2020-11-16; Political Economy/World (General)/Sociology (General); Pb-9781789047493, \$10.95/£7.99, 120pp, 8.5x5.5inches / 216x140mm, Ebk-9781789047509, \$5.99/£4.99.

## Resetting Our Future: Zero Waste Living, The 80/20 Way

Stephanie J. Miller

Many of us feel powerless to solve the looming climate and waste crises. We have too much on our plates, and may think these problems are better solved by governments and businesses. This book unlocks the potential in each "too busy" individual to be a crucial part of the solution. Stephanie Miller combines her career focused on climate change with her own research and personal experience to show how a few, relatively easy lifestyle changes can create significant positive impact. Using the simplicity of the 80/20 rule, she shows us those things (the 20%) that we can do to make the biggest (80%) difference in reversing the climate and waste crises.

**Changemakers Books;** 2020-10-15; Green Lifestyle/Environmental Conservation & Protection/Diets; Pb-9781789047394, \$10.95/£7.99, 112pp, 8.5x5.5inches / 216x140mm, Ebk-9781789047400, \$5.99/£4.99.
